B17001B	POVERTY STATUS IN THE PAST 12 MONTHS BY SEX BY AGE (BLACK OR AFRICAN AMERICAN ALONE) Universe: Black or African American alone population for whom poverty status is determined 2010 American Community Survey 1-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

	Orleans Parish, Louisiana	
	Estimate	**Margin of Error**
Total:	205,105	+/-2,731
Income in the past 12 months below poverty level:	70,250	+/-6,574
Male:	29,469	+/-3,588
Under 5 years	4,161	+/-897
5 years	526	+/-422
6 to 11 years	4,591	+/-1,609
12 to 14 years	2,722	+/-990
15 years	952	+/-541
16 and 17 years	1,391	+/-641
18 to 24 years	3,668	+/-923
25 to 34 years	2,699	+/-821
35 to 44 years	1,887	+/-822
45 to 54 years	3,195	+/-1,081
55 to 64 years	2,094	+/-769
65 to 74 years	812	+/-537
75 years and over	771	+/-342
Female:	40,781	+/-3,940
Under 5 years	5,488	+/-718
5 years	340	+/-280
6 to 11 years	3,720	+/-1,073
12 to 14 years	1,831	+/-697
15 years	1,374	+/-612
16 and 17 years	859	+/-447
18 to 24 years	5,967	+/-1,329
25 to 34 years	6,677	+/-1,203
35 to 44 years	3,770	+/-978
45 to 54 years	4,107	+/-970
55 to 64 years	3,670	+/-1,002
65 to 74 years	1,713	+/-613
75 years and over	1,265	+/-492
Income in the past 12 months at or above poverty level:	134,855	+/-6,735
Male:	65,398	+/-3,953
Under 5 years	3,151	+/-893
5 years	802	+/-608
6 to 11 years	4,262	+/-1,105

	Orleans Parish, Louisiana	
	Estimate	Margin of Error
12 to 14 years	1,781	+/-660
15 years	927	+/-450
16 and 17 years	1,721	+/-634
18 to 24 years	7,819	+/-953
25 to 34 years	9,880	+/-986
35 to 44 years	8,906	+/-852
45 to 54 years	10,578	+/-1,088
55 to 64 years	9,053	+/-818
65 to 74 years	4,265	+/-548
75 years and over	2,253	+/-392
Female:	69,457	+/-3,821
Under 5 years	2,113	+/-719
5 years	1,172	+/-591
6 to 11 years	3,947	+/-811
12 to 14 years	3,055	+/-975
15 years	739	+/-415
16 and 17 years	1,992	+/-548
18 to 24 years	6,269	+/-1,307
25 to 34 years	8,390	+/-1,184
35 to 44 years	9,190	+/-940
45 to 54 years	12,270	+/-1,000
55 to 64 years	10,143	+/-1,010
65 to 74 years	5,669	+/-610
75 years and over	4,508	+/-478

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
